

The Alaska Energy Authority (the Authority) will not be issuing a Renewable Energy Fund (REF) Request for Applications (RFA) in Fiscal Year 2017.

In Fiscal Year 2016, the Authority recommended 39 projects to the legislature for funding under REF Round IX. The legislature did not appropriate funding for any of these projects in the state's Fiscal Year 2017 capital budget. It is for this reason that there will be no RFA soliciting new grant applications for REF Round X.

Instead, the Authority will recommend the same REF Round IX ranked list of projects to the legislature in January 2017 for funding consideration in Round X. No new information on these projects will be requested or considered by the Authority at this time as a part of the recommendation process. However, should the legislature appropriate funding to any of the recommended projects, the Authority reserves the right to request additional information from applicants as the Authority deems necessary to finalize grant agreements.

Round IX applicants are entitled to withdraw their project from the list submitted to the legislature for funding in Round X at any time prior to January 1, 2017.

If you have any questions regarding this public notice or Round X of the REF Program, contact Cady Lister by email at clister@aidea.org or by calling 907-771-3039.

The REF Round IX recommended projects are listed below:

1. Fivemile Creek Hydroelectric Project - Chitina Electric Inc. (CEI)
2. Sand Point High Penetration Wind System - Sand Point Generating, TDX
3. Wales Water System Heat Recovery - City of Wales
4. Adak Hydro Power Generator - TDX Adak Generating, TDX
5. Koyuk Water System Heat Recovery - City of Koyuk
6. Shishmaref Wind Feasibility & Conceptual Design - Alaska Village Electric Coop
7. Grayling Water System Heat Recovery - City of Grayling
8. Heat Pump System for City of Seward - City of Seward
9. IPEC Gunnuk Creek Hydro Rehab in Kake - Inside Passage Electric Coop
10. Mountain Village-St. Mary's Wind Intertie - Alaska Village Electric Coop
11. Elfin Cove Hydroelectric Permitting - Elfin Cove Utility Commission
12. Shungnak Wind-Diesel Conceptual Design - Native Village of Shungnak
13. Bethel Power Plant Heat Recovery Module - Alaska Village Electric Coop
14. Chignik Hydroelectric Dam Project - City of Chignik
15. Old Harbor Hydro Geotech & Final Design - Alaska Village Electric Coop
16. Upper Hidden Basin Geotech Investigation - Kodiak Electric Association
17. Indian River Hydroelectric Project - Tenakee Springs Electric
18. Cosmos Hills Hydro Design & Permitting - NANA Regional Corporation
19. Eek Water System Heat Recovery - City of Eek

20. Sitka Wastewater Plant Effluent Heat Pump - City and Borough of Sitka
21. Yerrick Creek Hydro Construction - Upper Tanana Energy
22. Neck Lake Hydropower Project - Alaska Power Company
23. Scammon Bay Hydroelectric Project - City of Scammon Bay
24. Huslia Water & Clinic Biomass Boiler - City of Huslia
25. False Pass Hydro Feasibility & Conceptual Design - City of False Pass
26. St. Paul Island 80% Renewable Energy Feasibility - TDX Power, Inc.
27. Ambler Washeteria and City Office Biomass Heating - City of Ambler
28. Atkasuk Transmission Line Design and Permitting - North Slope Borough
29. Saxman Low-Rent Multifamily Air Source Heat Pump - Tlingit-Haida RHA
30. Unalaska Water Treatment Inline Micro Turbines - City of Unalaska
31. Ketchikan High School Biomass Boiler - Ketchikan Gateway Borough
32. Klawock School Biomass Fuel Boiler Project - Klawock City School District
33. Crater Lake Power and Water Project - Cordova Electric Cooperative
34. Chugach Electric Solar Project - Chugach Electric Association
35. Grant Lake Hydroelectric Project - Kenai Hydro LLC
36. Ouzinkie Hydroelectric Power Project - City of Ouzinkie
37. Waterfall Creek Hydro Construction - City of King Cove
38. Kaktovik Wind Diesel Design - North Slope Borough
39. Ketchikan Schools Recreation Heating Plant - Ketchikan Gateway Borough
