

CLARIFICATION TO REQUEST FOR GRANT APPLICATIONS (RFA) AEA 11-005

This is to note a change / clarification to the table at 1.15 (Grant Funding Project Limits, page 9 of 25) of the RFA.

Below is the revised table:

Project Type/Phase	Grant Limits
Final Design and Permitting	\$500,000 or no more than 20% of anticipated construction cost
Construction projects on the 'Railbelt', Juneau, Sitka, Ketchikan, Wrangell, and Petersburg electrical grids	\$2 million per project
Construction in all other areas of the State not mentioned above	\$4 million per project

Basically, the Kodiak area is moved from the '\$2 million per project' limit to the '\$4 million per project limit'; which is where the Kodiak area was in the three previous rounds of funding.
